Zestaw 1

This set features a bottle of **Glögg**. It's sure to be a delight and a pleasant surprise - this beverage isn't principally popular in our part of Europe.

You can select one of two **Glöggs**.

The first selection is a traditional Glögg – a non-alcoholic beverage featuring the full range of Scandinavian flavours.

The second selection is an ECO (vegan) version of the beverage. It contains a limited amount (0.5%) of alcohol.

Zestaw 2

This set includes **Glögg** as well as a package of **Pepparkakor** gingerbread cookies. **Very thin and very crisp with the characteristic flavour.**

Placed in elegant packaging containing a natural filler, they will serve as a unique gift.

Packaging and filler

The orders are delivered in elegant packaging (solid cardboard boxes – internal and external sides in matching colours, carefully finished with shiny paper). We recommend a choice of two colours - red or black.

The package is closed using a magnet.

Inside the gift will feature a natural, decorative filler.
